## HIRING MANAGER

PETRONAS Digital

Peninsular Malaysia

Dear Hiring Manager,

I am excited to apply for the Software Engineering Internship at PETRONAS Digital. As a passionate developer with a strong foundation in web and mobile software development, coupled with my enthusiasm for cutting-edge technologies, I am eager to contribute to PETRONAS' digital transformation journey while honing my skills in a dynamic and innovative environment.

Currently pursuing a Bachelor's in Computer Science (Artificial Intelligence) at the University of Malaya, I have developed a robust skill set in HTML5, CSS, JavaScript, and SQL, alongside hands-on experience with frameworks like React. During my exchange semester at KAIST, South Korea, I deepened my expertise in AI, computer vision, and database management, gaining practical experience with MySQL and SQLite. This knowledge has enabled me to design and optimize database systems for scalable and efficient applications.

One of my proudest achievements is the creation of UM Notes, a platform for University of Malaya students to share lecture notes and slides. As the lead developer, I designed and implemented the platform, including a secure authentication system using siswamail. This project not only improved accessibility to academic resources but also showcased my ability to deliver user-centric solutions that address real-world needs.

What excites me most about this internship is the opportunity to work with PETRONAS Digital's diverse tech stack, including Microsoft Azure DevOps, React/Angular, and SQL databases. I am particularly drawn to PETRONAS' emphasis on collaboration, creativity, and continuous learning—values that resonate deeply with my approach to problem-solving and personal growth.

I am confident that my technical expertise, coupled with my enthusiasm for innovation, makes me a strong fit for this internship. I would be thrilled to contribute to PETRONAS Digital's mission while growing under the guidance of your experienced technical coaches.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with your team's goals. Please feel free to contact me at +60102022377 or [rafidaffa2@gmail.com](mailto:rafidaffa2@gmail.com) to schedule an interview.

Warm regards,

Rafi Daffa Ramadhani
